

SFA-5421

High Level Bottle Depalletizer Machine

SYSTEM ADVANTAGES

- High operational safety due to robust standard construction.
- Economical continuous operation due to high degree of availability.
- Short changeover times for product changes.
- Easy operation.
- Low maintenance.

FEATURES

- Sa Fwu De-Palletisers are capable of de-palletising a multitude of bottle types in a method, which is gentle on the products. The large processing range comprises Cans, PE, PET and Glass Bottles etc.
- The lifting unit of the base machine is equipped with a frequency-controlled, maintenance-free toothed belt drive to lower the energy requirement.
- Automatic Paper take-out system combine with automatic stacking system to eliminate troublesome take out by manual operation. And also provides convenience for moving by forklift.
- Empty bottle pallet operates automatically with frequency-controlled, assuring smooth motion without damaging on empty bottles.
- Human-Computer Interaction Design control panel both in English and Chinese version provides automatic display for error message and position guide for operation.

SPECIFICATIONS

MODEL	SFA-5421
POWER SOURCE	According to Installation Place, Local Electricity Sources
POWER CAPACITY	17 KW
AIR PRESSURE	5.0~7.0 kg/cm ²
MACHINE DIMENSIONS	L : 9718 x W : 4269 x H : 4096 mm
MACHINE WEIGHT	4200 kg
PROCESSING CAPACITY	30~40 sec./Layer
OPERATION CONTROL	English / Chinese Display System
SUITABLE PROCESSING PACKAGE	Can, PE, PET, Glass Bottle etc.
